

# Companion Planting Chart

There are various pairings when it comes to companion planting. Wherefore one pairing may work better for one gardener, but not so much for another. So, when planning your garden, create diversity to increase productivity and protect plant health.

| Plant  | Friend  | Foe  |
|--|---|--|
| Amaranth   | Corn  |  |
| Asparagus  | Basil, cilantro, dill, marigolds, oregano, parsley, pepper, sage, thyme, tomato   | Garlic, onion, potato                        |

| Beans, bush  | Celery, cucumber, corn, potato, savory, strawberry  | Garlic, onion                                |
| Beans, pole  | Corn, radish  | Beet, kohlrabi, onion, beet                  |
| Beets  | Bean, Brassicas, corn, garlic, kohlrabi, leek, lettuce, mint, onion, potato   | Mustard, pole beans                          |
| Borage   | Brassicas, cucumber, melon, squash, tomato  |  |
| Brassicas (Broccoli, Cabbage, Cauliflower, Collards, <a href="#">Kale</a> , Kohlrabi, Turnips) | Chamomile, catnip, celery, chamomile, cilantro, dill, mint, rosemary, sage  | Bean, dill, potato, tomato                   |
| Carrots  | Bean, Brassicas, chive, leek, lettuce, onion, pea, pepper, radish, rosemary, sage, tomato                                   | Dill, parsnip, potato, radish                |
| Celery   | Brassicas, bean, nasturtium, onion, tomato  | Parsnip, potato                              |
| Corn   | Amarath, bean, beet, cucumber, dill, melon, parsley, pea, potato, pumpkin, squash, sunflower                                | celery, tomato                               |
| Cucumber   | Asparagus, bean, beet, Brassicas, carrots, celery, corn, dill, kohlrabi, lettuce, nasturtium, onion, pea, radish            | Mint, potato, rosemary, sage                 |
| Dill   | Brassicas, corn, cucumber, lettuce, onion   | Carrot, tomato                               |
| Eggplant   | Amaranth, bean, marigold, pea, pepper, spinach, thyme   | Fennel                                       |
| <a href="#">Garlic</a> , Chives  | Beet, Brassicas, carrot, celery, lettuce, potato, roses, strawberry, tomato   | Beans, pea                                   |
| Lettuce, Greens  | Bean, beet, cucumber, garlic, kohlrabi, onion, radish   | Parsley                                      |
| Onions   | Brassicas, carrot, tomato, pepper   | Beans, parsley, pea                          |
| Peppers  | Geranium, petunia, tomato   | Beans, Brussels sprouts, cabbage, kale       |
| Potatoes   | Bean, Brassicas, corn, horseradish, marigold  | Cucumber, pumpkin, squash, sunflower, tomato |
| Radishes   | Cucumber, lettuce, nasturtium, pea  | Hyssop                                       |
| Spinach  | Beans, strawberry   |  |
| Squash   | Corn, marigold, nasturtium  | Potato                                       |
| Tomato   | Asparagus, basil, carrot, cucumber, garlic, marigold, nasturtium, onion, parsley  | Brassicas, fennel, potato                    |
| Turnip   | Peas  | Potato                                       |

Reaping the therapeutic benefits of gardening while growing healthy food sustainably

[theheartygarden.com](http://theheartygarden.com)

**Friends:** Plants complement each other by either attracting pollinators, offering nutrients, used as protection against pests, or used as a support.

**Foes:** May cause issues such as stunting growth or attracting damaging pests
